Entrance Changes to Western Memorial Regional Hospital

WMRH has made changes to entry points to support anticipated increase in services as well as visitation/support person.

To promote physical distancing we are asking the public to follow new directional signage and enter the building using designated entrances. All entrances will have a large number outside of each entry point. The table below identifies the entry based on the reason for visit.

For appointments booked in advance the number of the entry will be provided with the appointment time.
